**Subject:** Maintain original Portland Harbor cleanup plan

To whom it may concern,

I am writing to share my concerns over the proposed changes to the Portland Harbor Cleanup Plan. As a Portland native and avid boater and swimmer of the Willamette River, I am deeply worried that a scaled back plan and budget will result in an ineffective band-aid over a serious issue that endangers our environment and community.

The river runs through the heart of our city, and directly impacts the regional economy. Without a thorough and immediate cleanup, our residents and wildlife will continue to suffer from contaminated sentiment and fish.

Please continue to honor your original commitment to our community by rejecting these proposed changes to the Portland Harbor Cleanup Plan and execute on the original plan as soon as possible.

Best,
